

Comprehensive lab work

- Blood sugar: glucose, A1C, and insulin
- Cholesterol: total, triglycerides, HDL, LDL, VLDL, TC/HDL ratio
- Vitamins D and B12
- Thyroid: TSH, 4 thyroid hormones (TT4, FT4, TT3, FT3), T3 uptake, RT3, FTI, & 2 thyroid antibodies (TPO Abs, Tg Abs)
- Iron: serum iron, ferritin, TIBC, UIBC, iron saturation
- CBC w/differential
- Metabolic: uric acid, BUN, creatinine, GFR, BUN/creatinine ratio, sodium, potassium, chloride, carbon dioxide, calcium, phosphorus, magnesium, protein, albumin, globulin, A/G ratio, bilirubin, alkaline phosphatase, LDH, GGTP, liver enzymes (AST, ALT)
- Other: Homocysteine, CRP
- Urinalysis

Cost for labs and analysis: \$315

Optional add ons:

- ANA (autoimmune) \$20, Rheumatoid factor \$15, testosterone \$26, progesterone \$22, estrogen \$33
